Technical Advisor on the Carnival Fashion Industry

(Reference Number: *BCRC#11176_2026_003*)

REQUESTS FOR CLARIFICATION

The following information is provided as a response to requests for clarification on the Call for Proposals for the above-mentioned consultancy. This document will be updated as needed.

1) QUERY 1: Clarification regarding the consultancy duration

The Consultancy Notice indicates a duration of two (2) years, while Section 5 of the attached Terms of Reference (TOR) notes a consultancy duration of four (4) years. Could you kindly confirm the intended duration of the consultancy?

RESPONSE:

The initial contract period for this consultancy is intended to be two (2) years, as indicated in the Consultancy Notice. This initial engagement forms part of the broader project timeframe, which extends to June 30, 2030.

Following the initial two-year period, the consultancy is expected to continue through yearly incremental re-engagements, subject to satisfactory performance and the evolving needs of the project, over the full five-year duration. Continued engagement will therefore be determined on an annual basis, in alignment with project priorities and implementation progress, including consideration for support during the final phase of project execution and closeout.

Please note that all timelines and engagement arrangements remain subject to adjustment based on project requirements. We will also make this distinction clear in our related social media postings to avoid further confusion.
